According to Erik Gustafson, a veteran of the 1991 Gulf War and founding director of EPIC, “this event seeks to remind our friends and partners that we must continue in our role to promote peace and humanitarian assistance in Iraq and educate all Americans about the country's promise and potential. Now more than ever, we are hopeful that feelings of unity, acceptance, and collective action pervade, and that all those who share in this spirit will join us on November 17.”

The Education for Peace in Iraq Center (EPIC) works one-on-one with young people and civil society leaders in Iraq to carry out effective programs, monitor the crisis and inform public policy, enhance understanding of Iraq’s story, and advocate for peaceful change. EPIC was founded in 1998 by veterans of the Gulf War who believe that youth empowerment and a human security approach can make Iraq safe and prosperous again.
